People choose recreation areas in order to achieve specific experiences. For example, a person may choose a city park to play softball, but an undeveloped site in a forest for camping. To make a variety of outdoor experiences possible, a variety of outdoor areas must be available. Some outdoor settings would need many facilities, be easy to get to, attract large numbers of people, and generally be very convenient. To provide different type of recreation experiences, more primitive outdoor settings would require few or no facilities, be more difficult to get to, have few people, and offer very few, if any, conveniences.

With this in mind, for each statement that I read, please tell me whether you strongly agree (SA), agree (A), disagree (D), or strongly disagree (SD)

Q528 In primitive outdoor recreation settings, I would ANTICIPATE less accessibility for persons with disabilities. Do you...
